

The 3rd annual Bridges Asia 2012 and Tunnel Design & Construction Asia 2012 – 28-29 February 2012

1 a. Event description for Bridges Asia 2012 for your calendar listing and newsletters

The **3rd annual Bridges Asia 2012** proves to offer the latest innovation and engineering solutions used in iconic and technically complex bridges in Asia. Stakeholders and infrastructure owners come together and share best practices for developing and managing cost effective and sustainable bridge projects.

For the first time, Bridges Asia will be co-located with the **3rd annual Tunnel Design & Construction Asia** conference in Hong Kong. This will create a one-stop platform for stakeholders to network and do business at Asia's largest transport infrastructure conference.
